MIGAO TOURS & TRAVEL

As the approved agent for SUNWAVES inaugural Zanzibar Edition, and with nearly 20 years experience in the travel and tourism industry in East Africa, we look forward to making your time here in the tropics a seamless experience.

The island offers the Festival, now in its fourteenth year running, the most magical new setting - white beaches with crystal clear water, an incredible climate, friendly locals and a place where we can safely enjoy freedom in 2021.

When not wandering the Festival circuit, there's a whole island to explore. If you're looking for adventure, culture, history or even just an excellent restaurant, We can create or book the experience on your behalf.

So besides dancing on the dance floor for you (you really want to do this yourself) we are able to organise almost anything. We're here to connect the dots.

THE FESTIVAL | 17 - 21 JUNE 2021

Europe's largest biannual electronic music festival SUNWAVES lands on Zanzibar's east coast this June. Over 5 days and 5 nights, 40 top international DJs will deliver over 100 hours of incredible electronic music including sets from Dubfire, Hector, Loco Dice, Raresh, Ricardo Villalobos and many more.

Switching up shore lines, the Festival's debut on Dongwe Beach promises the same trademark wooden tent and stage setup, the same Funktion 1 sound system, well-defined spaces with places for people to chill, a locally sourced food court and that priceless feeling of freedom.

Recent editions have seen up to 50 000 visitors a year, hailing from nearly 80 countries. If you have been yearning for an island getaway, now is the time.
